

Oakwood Cemetery New Kiosk

City of Austin Historic Landmark
Commission Meeting
August 27, 2018

Project Overview

PARD would like to install an information kiosk in front of the Oakwood Chapel located in Oakwood Cemetery. Oakwood Cemetery was established in 1839 and the Oakwood Cemetery Chapel was constructed in 1914. The cemetery is a City of Austin Historic Landmark, Historic Texas Cemetery and on the National Register of Historic Places.

The Oakwood Chapel is currently completing rehabilitation and will be open to the public in 2018 to serve as a visitor center for the cemetery. Previously, the chapel had a double sided informational kiosk located in front of the chapel. The kiosk was removed while the chapel and surrounding landscape were undergoing renovation.

PARD would like to propose the installation of a new informational kiosk in front of the chapel.

Previous kiosk location

Project Location

The proposed location of the new kiosk would be placed on the east side of the chapel and would not block any part of the facade of the chapel.

The proposed kiosk is similar in appearance to the previous kiosk. It will serve as a place to store educational information, fliers, upcoming events, and cemetery maps for the public.

Proposed Kiosk Specifications

Dimensions:

Roof Dimensions	6'-0" x 6'-0"
Column Dimensions (center to center)	3'-0" x 4'-6"
Minimum Clearance	7'-2"
Roof Height at Ridge	9'-0 1/2"
Gable Roof	6:12 pitch
Square Feet Under Roof	36

Columns shall be 5'x5' steel tube minimum, .120 wall thickness.

All beams shall be structural steel tube sized according to engineering.

All bolts shall be A-307 or A-325 and hidden at all connections.

Roofing shall be 24 gauge HR-36 steel pre-cut, pre-finished with ribs running with the slope of the roof.

Trim shall be 24 gauge pre-finished to match roofing.

Fascia shall be tube steel.

(1)-4'x3' double sided, satin aluminum cabinet with lockable doors (doors on both sides) shall be provided.

- **Recent installation at Mount Bonnell**
- **Masonry work is not included in the Oakwood Cemetery Project**

Color Options

COA typically uses:

- Roof – Zincalume/ Galvalume
- Frame Powder Coat Colors – RAL 7013, Brown Grey

STEEL ROOF SPECIFICATIONS

- 24 gauge standard with 30-year warranted paint finish on top and white paint on bottom.

STANDARD HB-36/MEGA RIB
• 3" wide panels w/ 7 3/16" o.c. rib spacing, 1 1/2" profile

OPTIONAL STANDING SEAM or SUPER SPAN
• 12", 16" or 17" o.c. wide panels w/ 1 1/4" high rib, smooth panel (upcharge applies)

OPTIONAL R-PANEL or SUPER SPAN
• 3" wide panels w/ 12" o.c. rib spacing, 1 1/4" profile

OPTIONAL NU-WAVE CORRUGATED STEEL ROOF
• 37" wide panel w/ 7/8" high ribs spaced 2 2/3" o.c.

ROOF COLORS

AEP Span and McElroy Metals are our primary roof suppliers. All colors are available from both companies, unless otherwise noted. The color selections marked (*) are only available from McElroy Metals. Those selections marked with (**) will incur an upcharge fee.

WARNING! Roofing paint (top and bottom) can vary slightly from batch to batch.

FRAME POWDER COAT COLORS

Other powder coat colors are available at no additional charge; selections marked with (**) samples of premium paint colors will incur an upcharge.

FRAME & COLUMN COATING SPECIFICATIONS

Standard (Prime Paint) Finish

- Shot blasted steel
- Factory applied zinc rich powder coat primer
- Two coats of final applied finish paint supplied by others
- Field paint must be applied within 48 hours of primer application for proper bonding

Powder coating with zinc rich primer and TGIC polyester

- Shot blasted steel
- Factory applied zinc rich primer & TGIC Polyester (3-4 mil min. thickness on exterior and 3 mil min. thickness on interior)

Hot-dip Galvanizing

- Cleaned steel
- Factory applied hot dipped zinc galvanizing
- An option of TGIC polyester powder coat may be applied to galvanizing if desired

*** Note: An optional Super Durable TGIC and graffiti resistant TGIC color or clear coat is available for an upcharge.**
